

## 2018 CONGRESS OF THE INTERNATIONAL SOCIETY FOR APPLIED ETHOLOGY

### SPONSORSHIP PROSPECTUS

The International Society for Applied Ethology (ISAE) is the leading scientific society for the study of the behaviour and welfare of confined or domesticated animals, including companion, farm, zoo and managed wild animals. The Congress provides an international forum for the presentation and discussion of advances in applied animal behaviour science and animal welfare.

After a gap of 22 years, this will be the second time since the formation of the ISAE in 1966 that the International Conference will be held in Canada and it will only be the fifth time that the conference will be held in North America.

200 + international delegates (ethologists, veterinarians, animal scientists and graduate students) are expected to attend the conference. The conference will be held at the University of Prince Edward Island, an attractive campus located in the popular summer tourism city of Charlottetown that is set within the wonderful coastal and pastoral environment of Prince Edward Island.

#### OPPORTUNITY

Take advantage of the opportunity to sponsor this prestigious event and be associated with the promotion of animal welfare through the presentation and discussion by current and future leaders of research on scientific advances in behaviour and welfare studies.

We hope you will take the time to review the opportunities for support and we look forward to hearing from you in the near future.

#### CONTACT DETAILS

Dr. Michael Cockram, Sir James Dunn Animal Welfare Centre, Department of Health Management, Atlantic Veterinary College, University of Prince Edward Island, 550 University Avenue, Charlottetown, PEI, CANADA, C1A 4P3
